Evidence of Bears in the Hood

There has been a report of fresh bear scat in the neighborhood. Please warn your children of the danger of mama bears if someone gets between them and a cub. Please keep trash secured and don't put it out until Monday morning. Thank you!

Irrigation Expansion Project Moving Forward

In an effort to improve the overall appearance of the neighborhood we are preparing to put out for bid the plan for irrigating additional common space. The board would like input from homeowners at or before our next meeting (June 8th) so we can avoid delays in completing this project. The area to be addressed is along Blue Creek between Buckskin Drive and Black Bear Trail. This has been determined to be the area of greatest impact and an irrigation system will eliminate the need for costly and ineffectual manual watering.

New Lake Committee Asks for Input

A new committee is forming to help manage issues that come up regarding the lake area. We would like everyone to have a voice, even if you can't attend meetings. Please go to <http://bluelake.yuku.com> to join in the discussion.

Bike Path Closures

Brief closures of the paths and parking lots will happen during the middle of June for seal coating. Once dry to the touch it's okay to walk or bike on them again.

Spring Has Sprung

FINALLY

The neighborhood is looking good! Please treat lawn weeds, water, mow and repeat as necessary to maintain a tidy appearance. In a few short months we'll be tired of gardening and praying for snow....you've got to love Colorado and our changing seasons.

Lock It Up!

There have been further reports of items being stolen from unlocked vehicles. Please reduce your risk by locking cars, homes, sheds, etc.

Singed Trees at Lake

In response to the anonymous letter regarding the singed trees on the south west side of the lake: Our crew assisted Mid Valley Metropolitan's crew in burning the ditch along their property line. Although we had water on and around these trees before, during, and after burning the ditch, this area burned high and hot. From what I have seen in previous burns, and according to staff at Eagle Crest Nursery these trees should survive. If you would like to speak with me please call 948-2309. Thank you! Joe Meade - Blue Lake Maintenance Manager

NOTICE!!

Summer office hours are Tuesdays & Thursdays 9:00-3:00. Gina will check messages frequently during the week.

Next Board Meeting

Tuesday June 8th at 6:30 PM in the Blue Lake office building.
