## ANNUAL MEETING OCTOBER 19th at 7:00pm

### Looking for Volunteers

Please make plans now to attend our annual meeting. This is a great time to familiarize yourself with the workings of the association and have your voice heard by those who make decisions, and a good place to meet some neighbors.

The 2018 Budget is still in the works and the board is proposing a small increase to maintain a healthy reserve while continuing to make necessary repairs and improvements to the neighborhood.

We have a few board terms coming to an end, and we always like having fresh faces, perspectives, and areas of expertise. The board meets once a month for a couple hours. If you might be interested please call Gina or speak up at the An-

### Free Leaf Pick-Up Day

Waste Management will take up to 10 bags of leaves without imposing an "extras charge" on November 6th. It's okay to stock pile bags outside your garage before this date. Please don't put them at the curb until that morning. Unfortunately these bags will go into general trash and not be composted. If you have a way to haul them, Carbondale and Basalt will have a drop sight where leaves will be composted. Details will be available from the Town of Basalt or Carbondale in the near future.

### Tree Recommendations

The association hired Aspen Tree Service to do an inventory of our "urban forest" and to develop a management plan to maintain it. Their report will be posted on our website so that individual homeowners can benefit from the advice regarding planting and care recommendations for this area.

### Please Respect Employee's Time Off

Although our year-round employees carry cell phones like everyone else, they are not on-call. Please do not call them for non-emergency issues at times other than their normal working hours. Joe is typically available Monday-Friday 8:00-4:00. Leave a message for Gina on the office phone and she will get back to you on her next day of work. 963-1300

### We-Cycle will be Hibernating for the Season

We-Cycle is seeking feedback from residents of Blue Lake regarding the two stations here. They are considering keeping the station at the West Badger Road RFTA stop open for a few more months through early winter. Check out their website for more details. <https://www.we-cycle.org/>

### Next Board Meeting

The board has agreed to meet an hour before the Annual Meeting (6pm). This will not be a time for public comments as those will be heard beginning at 7pm.

## Boats at Lake Must Be Removed by November 1

Boats that are not removed will have locks cut and be impounded with a reclamation fee assessed. We suggest removal before the sometimes mischievous night of Halloween.

### Bathrooms Closing

Port-a-johns will be removed by month's end and lake bathrooms will be closed for the winter by October 12th. Please plan accordingly.

### Missing Something of Value?

A vehicle key fob and a drone were turned into the office recently. Call to identify and claim.
